LaPorte Pit Quarterly
Briefing

Current Activities

There has been no significant change in activity since the last briefing. LRM is still continuing to work with the county regarding permitting.

Next Briefing: October 2019

Other Activity

West Fort Collins Water District and contractors are in the final phase of upgrading the water line along 54G.

LRM is in the process of answering final questions from the county and we are hoping to get site plan approval within the month.

Houses and outbuildings at 2716 and 2800 W CO RD 54G were successfully inspected, permitted and demolished.

Main Access Bridge

We have submitted for a building permit with the county to begin installation of our main access bridge across the Little Cache Ditch. Once the permit is issued we plan to begin installation as soon as possible.

Next Steps

Development Agreement, Development construction permits, and building permits with the county.

A copy of this pamphlet and the presentation from the briefing will be posted to our website under the Laporte Tab.

Other Next Steps

- Berm installation & landscaping
- Site grading
- Access road
